

I listen to K-Love in the Denver Metro area on 91.1 FM. I am very concerned to hear that K-Love could be taken off the radio. It is wonderful to have a radio station that everyone in my family can listen to and not have to worry they will hear something inappropriate. K-Love reaches so many people that need to hear positive messages, that I feel it would be horrible if it went away. Please keep K-Love on the radio. Thank You, Tracy Austin
